CSIS Internships 2025 Latest Hiring

Description

CSIS is pleased to offer internship opportunities for individuals aspiring to contribute to national security. The CSIS Internship Program provides a unique and immersive experience for students and recent graduates interested in gaining insights into the field of intelligence and security.

Responsibilities

- **Research and Analysis:** Interns will engage in comprehensive research and analysis of various security-related issues, contributing valuable insights to ongoing investigations and assessments.
- **Collaboration:** Work closely with experienced intelligence professionals, collaborating on projects that have a direct impact on national security efforts.
- **Information Gathering:** Learn and apply techniques for gathering, assessing, and synthesizing information from diverse sources to support intelligence activities.
- **Project Support:** Assist in the execution of intelligence projects, providing support in areas such as data analysis, information validation, and reporting.
- **Professional Development:** Engage in training sessions and workshops to enhance skills in areas such as intelligence analysis, threat assessment, and security protocols.

Qualifications

- Currently enrolled in an undergraduate or graduate program, or a recent graduate with a degree in a relevant field such as intelligence, international relations, political science, or security studies.
- Strong analytical and research skills, with the ability to critically evaluate information from various sources.
- Excellent communication skills, both written and verbal.
- Demonstrated interest in national security, intelligence, and related fields.
- Ability to handle sensitive and confidential information with discretion.

Job Benefits

1. **Professional Development:**
 - Access to specialized training sessions and workshops to enhance skills in intelligence analysis, threat assessment, and security protocols.
 - Mentorship opportunities with seasoned intelligence professionals, providing guidance and insights into the field.
2. **Real-world Experience:**
 - Gain practical experience in a dynamic and high-stakes environment, contributing to ongoing intelligence projects and activities.
 - Exposure to cutting-edge technology and methodologies used in the intelligence and security sector.
